

STEM Competition Registration Process

Step One

Member Registration

- From www.huffman.house.gov/service/s/STEM-app-challenge, students start by clicking the “**Register for the House Student App Challenge**” link.
- From there, students will **verify their contest eligibility** by inputting their home or high school address.
- Students will receive on-screen confirmation of their eligibility, and click “**Register Now.**”

To Register

To enter, the student must create an account on www.challengepost.com and then register for the House Student App Contest under their participating Member of Congress' profile during the Competition Submission Period. All entries must be an original in concept, design and execution.

1. **Register for the House Student App Challenge**

2. Register at <http://www.challengepost.com>

The House Student App Challenge Registration

About the Challenge

You can learn about the Student App Challenge here or by visiting your participating Member's website.

Can I Participate?

1. Members of Congress must opt-in for their district to participate in this competition. If a Member does not opt-in, constituents in their district will be ineligible to participate.
2. The Competition is open only to high school students who reside in a participating district or who are eligible to attend public high school in that district and are 13 years old or older.
3. Individuals submitting on behalf of teams must meet the eligibility requirements for individual Contestants.

Check Eligibility

Check your eligibility by entering either your home address OR the address of the high school that you are eligible to attend.

House App Challenge for High School Students

This year marks the first annual Congressional Science, Technology, Engineering and Math (STEM) Academic Competition, the “House App Contest.” This new competition is designed to engage student’s creativity and encourage their participation in STEM education fields. Established by Members of the U.S. House of Representatives in 2013, this competition is a nationwide event that allows high school students from across the country to compete by creating and exhibiting their software application, or “app,” for mobile, tablet, or computer devices on a platform of their choice. Throughout the completion period, participating students will be provided opportunities to engage with various STEM educational partners located within the community to mentor and assist them with their app development.

The “House App Challenge” is open to all high school students in participating districts. Students entering the competition must submit their app’s source code online during the Competition Submission Period between **12 PM Eastern Standard Time on FEBRUARY 1ST, 2014, and 11:59 PM Eastern Daylight Time on APRIL 30TH, 2014**, as well as provide a YouTube or VIMEO video demo explaining their app and what they learned through this competition process.
